

Apply

Complete the “equation” for attendees:

$$\text{Educate} + \text{Learn} = \text{Apply}$$

To illustrate the myth & realities of cyber security as they are depicted through popular media.

To appreciate the impact that popular media can have in increasing awareness of cybersecurity.

How to Apply – see slide

How to Apply What You Have Learned Today

- What to cyber security issues be concern about and what scenarios not to worry about because they can not happen.
- In particular that public policy and public budgets have the greatest effect on cyber security , not technology.
- To demonstrate how popular media can be utilized in broad based cyber education programs.
- To Provide examples of correct and incorrect depictions of cyber events as displayed in popular media.
